PFAS DECLARATION

October 6, 2025

To Our Valued Customer,

Several regulatory actions are being put into place by various governing bodies (including the US and the European Union) regarding per- and polyfluoroalkyl substances known as PFAS.

As of the date of this letter, to the best of our knowledge, based on information provided by our suppliers there are no intentionally added PFAS substances as defined by the Toxic Substances Control Act (TSCA) Section 8(a)(7). Please note we are in contact with our suppliers on a regular basis regarding these substances. Polyconn does not test for these substances.

A handwritten signature in black ink, appearing to read "W. Nugent", written over a light blue horizontal line.

William F. Nugent
